

Ideation Phase

Empathize & Discover

Date	22 September 2026
Team ID	
Project Name	Online Complaint Registration
Maximum Marks	4 Marks

Empathy Map Canvas:

What does he THINK AND FEEL?

- Desires a simple and reliable platform to report and track civic complaints.
- Worries about delays, lack of updates, and difficulty knowing the status of complaints.
- Aspirations include transparent complaint handling, timely resolution, and secure communication with civic authorities.

What does he HEAR?

- Citizens expecting quick and easy complaint registration and tracking.
- Administrators emphasizing secure authentication, proper complaint management, and transparency.
- Industry trends promoting modern, scalable, and role-based web applications using the MERN stack.

What does he SEE?

- A clean and user-friendly dashboard for registering and tracking civic complaints.
- Complaint cards showing issue details, category, location, priority, and current status.
- Administrative dashboards displaying total complaints, pending cases, resolved cases, and assigned agents.

What does he SAY AND DO?

- Registers and logs in securely to access the CivicCare platform.
- Submits civic complaints with issue details, category, location, and priority.
- Tracks complaint status and views updates on the progress and resolution of complaints.

Pain (Fears, Frustrations, Obstacles)

- Fear of unauthorized access to personal information and complaint data.

- Frustrated by delays in complaint resolution and lack of real-time status updates.

Gain (Wants, Needs, Measures of Success)

- Wants a reliable platform where complaints are securely stored and can be tracked easily.
- Success is measured by faster complaint handling, clear status updates, and transparent resolution.
