

Project Design Phase: Solution Architecture

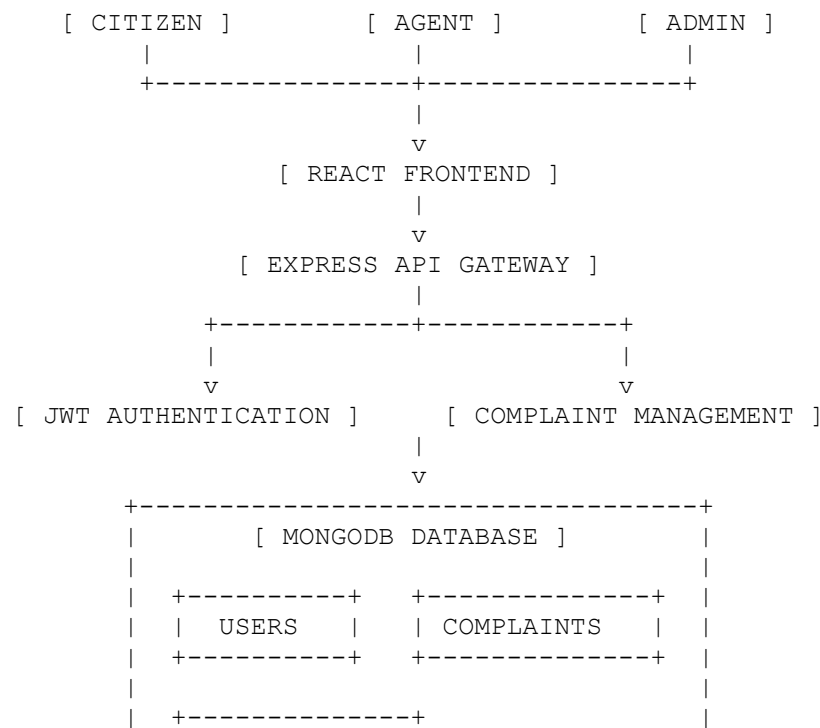

Date	23 September 2026
Team ID	
Project Name	Online Complaint Registration
Maximum Marks	4 Marks

1. Solution Architecture Overview

Solution architecture bridges civic requirements and technical implementation. Its core objectives include:

- Identifying suitable technical solutions for civic complaint management.
- Describing the structure, components, and behavior of the CivicCare system.
- Defining system requirements and development components.
- Establishing specifications for implementing and maintaining the project.

2. Proposed Solution Architecture Diagram

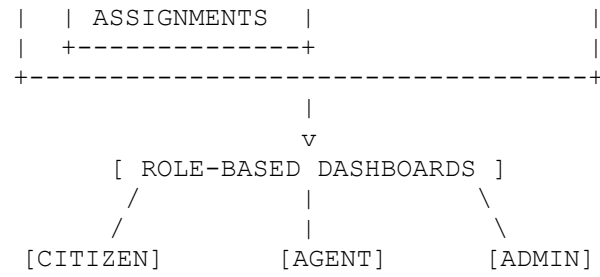

Figure 1: High-level MERN stack architecture flow for the CivicCare civic complaint management system.
